The Medicines and Healthcare products Regulatory Agency (MHRA) granted Rutland Biodynamics Ltd a Traditional Herbal Registration certificate for the traditional herbal medicinal products English Herbal Medicines Seaweed Slimix, Herbs Hands Healing Slimming Aid, Brooke Green Herbal Slimming Aid and Swiss Herbal Remedies Slimming Aid (Traditional Herbal Registration number: THR 28255/0020). These products are identical to each other apart from in product name and will be collectively referred to as Seaweed Slimming Aid for the remainder of this document. Seaweed Slimming Aid is available without prescription and can be bought from pharmacies and other outlets.

Seaweed Slimming Aid is a traditional herbal medicinal product used as an aid to slimming as part of a calorie controlled diet, based on traditional use only. The active ingredient in this product comes from the thallus of the Bladderwrack (Fucus vesiculosus L.) plant.

This registration is based exclusively upon evidence of the use of Bladderwrack thallus as a traditional herbal medicine and not upon data generated from clinical trials. There is no requirement under the Traditional Herbal Registration scheme to prove scientifically that the product works.

No new or unexpected safety concerns arose from this application and it was, therefore, decided that a Traditional Herbal Registration certificate could be granted.

INTRODUCTION

The MHRA granted a Traditional Herbal Registration certificate for the traditional herbal medicine Seaweed Slimming Aid (THR 28255/0020) to Rutland Biodynamics Ltd on 1 March 2011. This product is on the general sales list (GSL).

A product licence of right (PLR) was granted to Potters Limited for this product (under the name Liquid Extract of Bladderwrack, PL 00250/5365R) in 1972. The PLR was reviewed and a product licence was granted on 28 February 1991. Following a change of ownership on 3 February 2009 the product licence was transferred to Rutland Biodynamics Ltd under product licence number PL 28255/0006. Confirmation is given that PL 28255/0006 will be cancelled after the THR is granted.

This THR application was made under Article 16.c of Directive 2001/83 EC in accordance with arrangements to transfer certain herbal products with a marketing authorisation (product licence) to a THR (according to MHRA Guidance dated January 2009). The application falls within the simplified THR application Category A as no changes have been made to the formulation of the product. No new data were submitted, nor was it necessary for this application, as the data are essentially identical to those of the existing product.
PHARMACEUTICAL ASSESSMENT

HERBAL SUBSTANCE:  
**BLADDERWRACK**

*Scientific name of the plant:*  
*Fucus vesiculosus* L.

*Family:*  
Fucaceae

*Synonyms of the herbal substance:*  
Kelp

Assurance has been provided that the herbal substance complies with the Ph. Eur. monograph. The herbal substance is, therefore, satisfactory.

HERBAL PREPARATION:  
**BLADDERWRACK LIQUID EXTRACT**

*Parts of the plant used:*  
Thallus

*Ratio of the herbal substance to the herbal preparation (native):*  
1:1

*Extraction solvent:*  
Ethanol 21%

The herbal preparation specification is in line with that applied to the herbal preparation used in the already licensed product. It is, therefore, acceptable.

HERBAL PRODUCT:  
**SEAWEED SLIMMING AID**

**Description and Composition of the Herbal Product**
Seaweed Slimming Aid is a brown liquid that is taken orally. Each 1 ml of oral liquid contains 1 ml of liquid extract from dried Bladderwrack thallus (the herbal preparation). There are no excipients in this product. The ethanol in this product comes from the herbal preparation. The formulation is identical to that of the already licensed product. It is, therefore, acceptable.

**Manufacture**
The manufacturing process is in line with that of the already licensed product and is satisfactory.

**Finished Product Specification**
The finished product specification is in line with that of the already licensed product and is satisfactory.

**Container Closure System**
The liquid is packed in 50 ml or 100 ml glass bottles with a polyethylene screw cap or a 200 ml glass bottle with a bakelite screw cap. This type of packaging has been used to store the already licensed product and is satisfactory.
Stability
The product shelf-life of 3 years was applied to the already licensed product and is appropriate

Summary of Product Characteristics, label and Patient Information Leaflet
All product literature is in line with that of the already licensed product.

A product leaflet has been submitted to the MHRA along with results of consultations with target patient groups ("user testing"), in accordance with Article 59 of Council Directive 2001/83/EC. The results indicate that the package leaflet is well-structured and organised, easy to understand and written in a comprehensive manner. The test shows that the patients/users are able to act upon the information that it contains.

Assessor’s Overall Conclusions on Quality
The grant of a Traditional Herbal Registration is acceptable.
PRECLINICAL ASSESSMENT

INTRODUCTION
No new preclinical data have been supplied with this application and none is required for an application of this type.

Assurance has been given that the results of genotoxicity testing will be provided by the renewal date of the THR.

PRODUCT LITERATURE
All product literature is satisfactory from a preclinical point of view.

ASSESSOR’S OVERALL CONCLUSIONS
It is recommended that a Traditional Herbal Registration can be granted.
CLINICAL ASSESSMENT

INTRODUCTION
The clinical particulars for Seaweed Slimming Aid are identical to those for the already licensed product. This is satisfactory.

PRODUCT LITERATURE
All product literature is medically satisfactory.

ASSESSOR’S OVERALL CONCLUSIONS
It is recommended that a Traditional Herbal Registration can be granted.
OVERALL CONCLUSION AND RISK ASSESSMENT

QUALITY
Seaweed Slimming Aid is identical to an already licensed product. It is, therefore, pharmaceutically satisfactory.

PRECLINICAL
No new preclinical data were submitted and none are required for an application of this type. The results of genotoxicity testing will be provided before the THR is renewed.

EFFICACY
No clinical efficacy data are required for registration of Traditional Herbal Medicinal Products (THMP).

SAFETY
No new or unexpected safety concerns arose from this application.

RISK ASSESSMENT
The quality of the product is acceptable and no new preclinical or clinical safety concerns have been identified.

STEPS TAKEN FOR ASSESSMENT

1 The MHRA received the Traditional Herbal Registration application on 23 April 2010.

2 Following standard checks and communication with the applicant the MHRA considered the application valid on 3 June 2010.

3 Following assessment of the application the MHRA requested further information relating to the 1 October 2010.

4 The applicant responded to the MHRA’s request, providing further information on the dossier on 12 November 2010.

5 Following assessment of the response the MHRA requested further information relating to the dossier on 29 November 2011.

6 The applicant responded to the MHRA’s request, providing further information on the dossier on 7 January 2011.

7 A THR was granted on 1 March 2011.
SUMMARY OF PRODUCT CHARACTERISTICS

1 NAME OF THE MEDICINAL PRODUCT
English Herbal Medicines Seaweed Slimix
Herbs Hands Healing Slimming Aid
Brooke Green Herbal Slimming Aid
Swiss Herbal Remedies Slimming Aid

2 QUALITATIVE AND QUANTITATIVE COMPOSITION
Each 1 ml of oral liquid contains 1 ml of liquid extract from dried Bladderwrack (*Fucus vesiculosus* L.) thallus (1:1). Extraction solvent: ethanol 21% v/v.

Each 1 ml of oral liquid also contains approximately 166 mg Ethanol (alcohol). (See section 4.4 'Special warnings and precautions for use').

For list of excipients see Section 6.1.

3 PHARMACEUTICAL FORM
Oral Liquid.
Brown liquid.

4 CLINICAL PARTICULARS

4.1 Therapeutic indications
A traditional herbal medicinal product used as an aid to slimming as part of a calorie controlled diet, based on traditional use only.

4.2 Posology and method of administration
For oral use only.

*Adults (18 years and above)*
5ml twice a day with water.

This product must be used in conjunction with a calorie controlled diet and extra exercise.

If symptoms do not improve or worsen during the use of this medicinal product, a doctor or a qualified healthcare professional should be consulted.

The use in children and adolescents under 18 years of age and the elderly is not recommended (see section 4.4 Special warnings and precautions for use).
4.3 **Contraindications**
Patients with known hypersensitivity to Bladderwrack or any of the excipients should not use this product.
Patients with a thyroid disorder

4.4 **Special warnings and precautions for use**
Do not exceed the stated dose.
Contains alcohol – up to 828 mg ethanol per dose (equivalent to 21 ml of beer or 8.3 ml of wine).
Harmful for those suffering from alcoholism. To be taken into account in pregnant or breast-feeding women, children and high-risk groups such as patients with liver-disease, or epilepsy.

The use in children and adolescents under 18 years of age is not recommended because data are not sufficient and medical advice should be sought.

4.5 **Interaction with other medicinal products and other forms of interaction**
No studies have been carried out to determine if drug interactions occur with this product.

This product can theoretically have an effect on anticoagulant treatments. Patients taking anticoagulant treatments should not use this product.

Contains alcohol, and should therefore be avoided in patients taking other medication known to interact with alcohol (e.g. Metronidazole).

4.6 **Pregnancy and lactation**
Safety during pregnancy and lactation has not been established.
In the absence of sufficient data, the use during pregnancy and lactation is not recommended.

4.7 **Effects on ability to drive and use machines**
No studies on the effect of this product on the ability to drive or use machinery have been performed.
This product contains alcohol (see Section 2).

4.8 **Undesirable effects**
No adverse reactions are known.
If adverse reactions occur, a doctor or qualified healthcare practitioner should be consulted.

4.9 **Overdose**
No case of overdose has been reported.

Overdose of this product may result in alcohol intoxication. The amount of ethanol in a full bottle (8.3g in 50ml, 16.6g in 100ml and 33.1 g in 200 ml; equivalent to 0.5, 1 and 2 large glasses of wine respectively) may result in intoxication and should be treated accordingly.
5 PHARMACOLOGICAL PROPERTIES

5.1 Pharmacodynamic properties
Not required as per Article 16c(1)(a)(iii) of Directive 2001/83/EC as amended.

5.2 Pharmacokinetic properties
Not required as per Article 16c(1)(a)(iii) of Directive 2001/83/EC as amended.

5.3 Preclinical safety data
Tests on reproductive toxicity, genotoxicity and carcinogenicity have not been performed.

6 PHARMACEUTICAL PARTICULARS

6.1 List of excipients
Ethanol (From tincture)

6.2 Incompatibilities
Not applicable.

6.3 Shelf life
Three years.

6.4 Special precautions for storage
This medicinal product does not require any special storage conditions.

6.5 Nature and contents of container
Glass bottle with polypropylene screwcap: 50ml and 100ml.
Glass bottle with bakelite screwcap: 200 ml

Not all pack sizes may be marketed.

6.6 Special precautions for disposal
No special requirements.

PATIENT INFORMATION LEAFLET

A combined Patient Information Leaflet and labelling is provided for English Herbal Medicines Seaweed Slimix. Please see page 22 of this PAR for all patient information for this product.
Patient Information Leaflet
Herbs Hands Healing Slimming Aid

Bladderwrack Extract

Please read this leaflet carefully before using Herbs Hands Healing Slimming Aid. It contains important information about this product. Keep this leaflet. You may want to read it again. If you need more information or advice, please ask your doctor, pharmacist or qualified healthcare practitioner.

What is in this leaflet
1. What this product is and what it is used for
2. Before you take this product
3. How to take this product
4. Possible side effects
5. How to store this product
6. Further information

1. What this product is and what it is used for

Herbs Hands Healing Slimming Aid is a traditional herbal medicinal product used as an aid to slimming as part of a calorie controlled diet, based on traditional use only.

2. Before you take this product

Do not take this product if you:
- have a thyroid disorder
- are allergic to any of the ingredients (see section 6)
- are pregnant or breastfeeding
- are under 18 years old
- are elderly
- are taking an anticoagulant treatment

You should also know:
This product contains approximately 828 mg ethanol (alcohol) per dose equivalent to 21ml of beer or 8.3ml of wine. Harmful for those suffering from alcoholism or liver-disease.

3. How to take this product

For oral use only

Adults (18 years and above):
Take 5ml twice a day with water.

Do not exceed the stated dose

If you take too much of this product (overdose)
If you take more than the recommended dose, speak to a doctor, pharmacist or qualified healthcare practitioner and take this leaflet with you. Overdose of this product may result in alcohol intoxication and should be treated accordingly (see Section 2 - You should also know).
If you forget to take this product
Continue to take your usual dose at the usual time. It does not matter if you have missed a dose.

If your symptoms persist or worsen during the use of this product, tell your doctor.

If you have any questions, or are unsure about anything, please ask your doctor, pharmacist or qualified healthcare practitioner.

4. Possible side effects
There are no known side effects.

If you notice any side effects after taking the product tell your doctor or pharmacist.

5. How to store this product
Do not use after the expiry date shown on the bottle
Return any out of date medicine to your pharmacist who will dispose of it for you.

This product does not require any special storage conditions. Keep the bottle tightly closed.

Keep all medicines out of the reach and sight of children.

6. Further information
