WHAT THIS MEDICINE IS:
Phosphates enema is a boxed device which acts by drawing water into the bowel making the bacteria suffer and encouraging evacuation. It is used to evacuate and clean the bowel before and after certain operations.

DO NOT USE IF:
- you are allergic or sensitive to any of the ingredients.
- you are pregnant or breastfeeding.
- you are taking other medicines.

REPORTING OF SIDE EFFECTS:
If you get any side effects, talk to your doctor, pharmacist or nurse. This includes any possible side effects not listed in this leaflet. You can also report side effects directly via the Yellow Card Scheme at www.mhra.gov.uk/yellowcard

By reporting side effects you can help provide more information on the safety of this medicine.

Reporting of side effects
If you get any side effects, talk to your doctor, pharmacist or nurse. This includes any possible side effects not listed in this leaflet. You can also report side effects directly via the Yellow Card Scheme at: www.mhra.gov.uk/yellow-card by reporting side effects you can help provide more information on the safety of this medicine.

WHAT THIS MEDICINE IS AND WHO IT IS FOR
Phosphates enema is a stool softener which acts by drawing water into the bowel to help with the evacuation process. It is used:
• to evacuate and clear the bowel before and after certain operations
• before childbirth
• before diagnostic procedures such as colonoscopy or enema examination
• to treat constipation.

DO NOT USE IF:
• you are allergic to any of the ingredients
• you have information or doubts of the large bowel being dilated or narrowed by your disease
• you have a history of increased absorption from the colon, such as in Morbus Crohn's disease
• you have any unexplained abdominal or rectal pain problems.

Tell your doctor before using if you:
• suffer from other digestive disturbances (change of diet begins in the body)
• have a blockage in the gut (bowel obstruction)
• are constipated and feel bloated or have a neurological disorder such as Parkinson's of the lower part of the body or a stroke
• are taking other medicines
• are pregnant or breast-feeding.

Important information about some of the ingredients:
• sodium: speak to your doctor or pharmacist if you are on a sodium-controlled diet.
• phosphates: small children may cause irritation.

HOW TO STORE
• Keep out of the reach and sight of children
• Do not store above 25°C
• Do not throw away with your household waste or in water. Return all the unwanted medicines to your pharmacist. This will help to protect the environment.

Test released: February 2015

Manufactured:
Punica Pharmacutica NV, Rijswijk 17, 2610 Brux, Belgium

WHAT TO DO IF YOU THINK YOU HAVE BEEN OVERDOSED
If a large quantity of this medicine is taken accidentally, it may cause irritation. If in doubt, contact your doctor immediately.
