CanesOasis®
Cystitis Relief
4g Granules for Oral Solution
sodium citrate

**Effective relief from the burning and stinging of cystitis**

4g Granules for Oral Solution

**CRANBERRY FLAVOUR**

- **6 sachets**
- **48 hour complete course**

**HOW TO TAKE:**

Dissolve the contents of each sachet in a glass of water (200 ml) and drink straight away.

**DOSAGE:**

**Adult women:** Take the contents of one sachet three times a day for two days.

This medicine is not to be used by men or children.

Do not exceed the stated dose.

**For the relief of the symptoms of cystitis in women.**

Cystitis is an inflammation of the bladder, which causes painful irritation and an unpleasant burning sensation when passing water. This medicine provides relief by making the urine less acidic.

**WARNINGS:**

- If symptoms persist after the two day course is completed, consult your doctor or pharmacist. Do not repeat the treatment without medical advice.
- Do not take if you are pregnant or breastfeeding.
- Keep all medicines out of the sight and reach of children.
- Store below 25°C in a dry place.
- Do not take this medicine after the expiry date shown on the pack.

**Ingredients:**

Each 5.6g sachet contains sodium citrate dihydrate 4.0g. Also contains: Sucrose (sugar) and sodium - see the leaflet for more details.

**Please read the enclosed leaflet carefully before use.**
